

Ceramic

Ceramic is used for outdoor table surfaces and accessories due to its vibrant colors, intricate patterns, and weather resistance. Glazed ceramic is highly durable, resists UV rays, and does not fade easily, adding a touch of elegance to outdoor spaces.

Care & Maintenance

- Clean with mild detergent and warm water; rinse well.
- Avoid dropping heavy items to prevent cracks or chips.
- Store indoors during extreme cold to prevent cracking.
- Use felt pads under ceramic furniture to prevent surface scratching.
