

# PERFORMANCE & INDOOR/OUTDOOR PILLOWS

Finely crafted with moisture and mildew resistant yarns, our woven polyester pillows and poufs provide texture and long-lasting style suited for indoor and outdoor needs.

Brush or vacuum loose dirt from the surface of the fabrics following the direction of the pile. For a more thorough cleaning, use clean water to remove any dirt. Leave the fabric or pillow out to air dry.

For spills and stains, use a mixture of clean water and dish soap. Blot the affected area with the mixture using cloth or sponge. After blotting, rinse the affected area with clean water and leave the fabric or pillow out to air dry.
